+ ❤️ Frankston too

Waterfront fun in Frankston

South East Water was pleased to support the recent Frankston Waterfront Festival with our hydration station on hand to offer free refreshing water to festival goers. Over two exciting days the local community and visitors celebrated with live music, markets, beach activities, water sports, food, wine and fireworks at Frankston's Pier Promenade. In addition the annual Sand Sculpting Exhibition showcasing incredible creations with this year's theme of 'Friends, Foes & Super Heroes' entertained the young and young at heart. Watch this space as construction of our new head office in Frankston continues to progress well ahead of our move. Our employees are looking forward to touring the site over the coming months and experiencing the great array of cafés and retailers and getting to know the local community.
