

Food and Oil Interceptor Waste Transporters

South East Water requires Food and Oil Interceptors to be pumped out at the frequency specified in the Trade Waste Consent. Below is a list of Waste Transporters who are registered with the Environment Protection Authority (EPA Victoria) and South East Water. These Waste transporters will record all pump outs with South East Water on your behalf. If you choose to use a non registered South East Water Waste Transporter you will be required to supply a copy of the pump out docket to South East Water.
