Frequently asked questions

Where will the works commence?

Construction on this project has been divided into six sections (please see map). Works will commence in Section A on Beach Road between Mundy Street and Mentone Girls’ Grammar in Mentone. Crews will continue working along the sewer alignment in a southerly direction towards Mordialloc.

How long will work in each section take?

It is anticipated that each section marked on the map will take approximately one week to complete (weather permitting). As work crews will be mobile throughout this renewal, there will be no fixed project site office. Every effort will be made to move through each work section as quickly as possible.

Will my driveway be affected?

There will be some instances when we will need to block a resident driveway to access the sewer manholes. If we do need to block your driveway, we will notify you in person and where possible, provide at least 24 hours’ notice so that alternate parking arrangements can be made.

Will there be road closures during the works?

Yes. Centre Way will be closed in one direction. Limited access to Bear Street from Main Street service road and adjoining streets. These road closures will be of short duration with detours in place where necessary. Beach Road will remain open in both directions, however there will be southbound lane closures.

Can I ride my bike on Beach Road during the works?

Yes. Traffic management will be in place and bike riders are advised to take care when riding around the work section.

Will the works impact my water or sewerage services?

No. If you experience any disruption to your water or sewerage services please call our Faults and Emergency Department, which operates 24 hours a day, on 132 812.

Will the works impact on any other services?

No. If you experience any interruption to your gas, electricity or telephone services during the project period, please call your service retailer for more information.

Do I have to pay for these works?

No. There is no cost to the property or business owners for these works.

Will you repair any damage?

Yes. At the completion of works, permanent reinstatement will be carried out across the work site to restore any areas impacted by construction, as close as possible to their original condition.
**Section A**
Mundy Street → Mentone Girls Grammar

**Section B**
St Bedes College → Antibes Street

**Section C**
Birdwood Street → McIndoe Parade

**Section D**
Rennison Street → Rosella Road

**Section E**
Rosella Road → Bay Street

**Section F**
Epsom Road → Crn Chute Street & Bear Street
