

Berwick - Cranbourne Road Pump Station Decommissioning and Sewer Main Installation

Notification of upcoming day works in the Cranbourne East area

You might not notice a lot of the work we do because most of it is beneath your feet. Every day, we're maintaining and upgrading the underground infrastructure that keeps water and sewerage services flowing. With some upcoming works in your area you're likely to see us around. Roads which will be impacted are:

- Broad Oak Drive, Cranbourne East.

Here's what to expect while we get the job done.

Planning

- The Sewer Pump Station (SPS) near the railway doesn't have enough emergency storage so it needs to be removed. Instead, 350 m of sewer pipe will be installed along Broad Oak Drive.
- The Zinfra, Jaydo, WSP JV (ZJW) will be delivering these works on our behalf.
- We don't intend to disrupt your water and sewerage services.

Construction

- We'll do our best to keep impacts to a minimum however you may notice:
- Increased truck movements in the area
 - Construction noise from heavy machinery, including reversing beepers
 - A site compound set up near the existing SPS
 - Traffic management to ensure safe pedestrian, bicycle and vehicle movements.

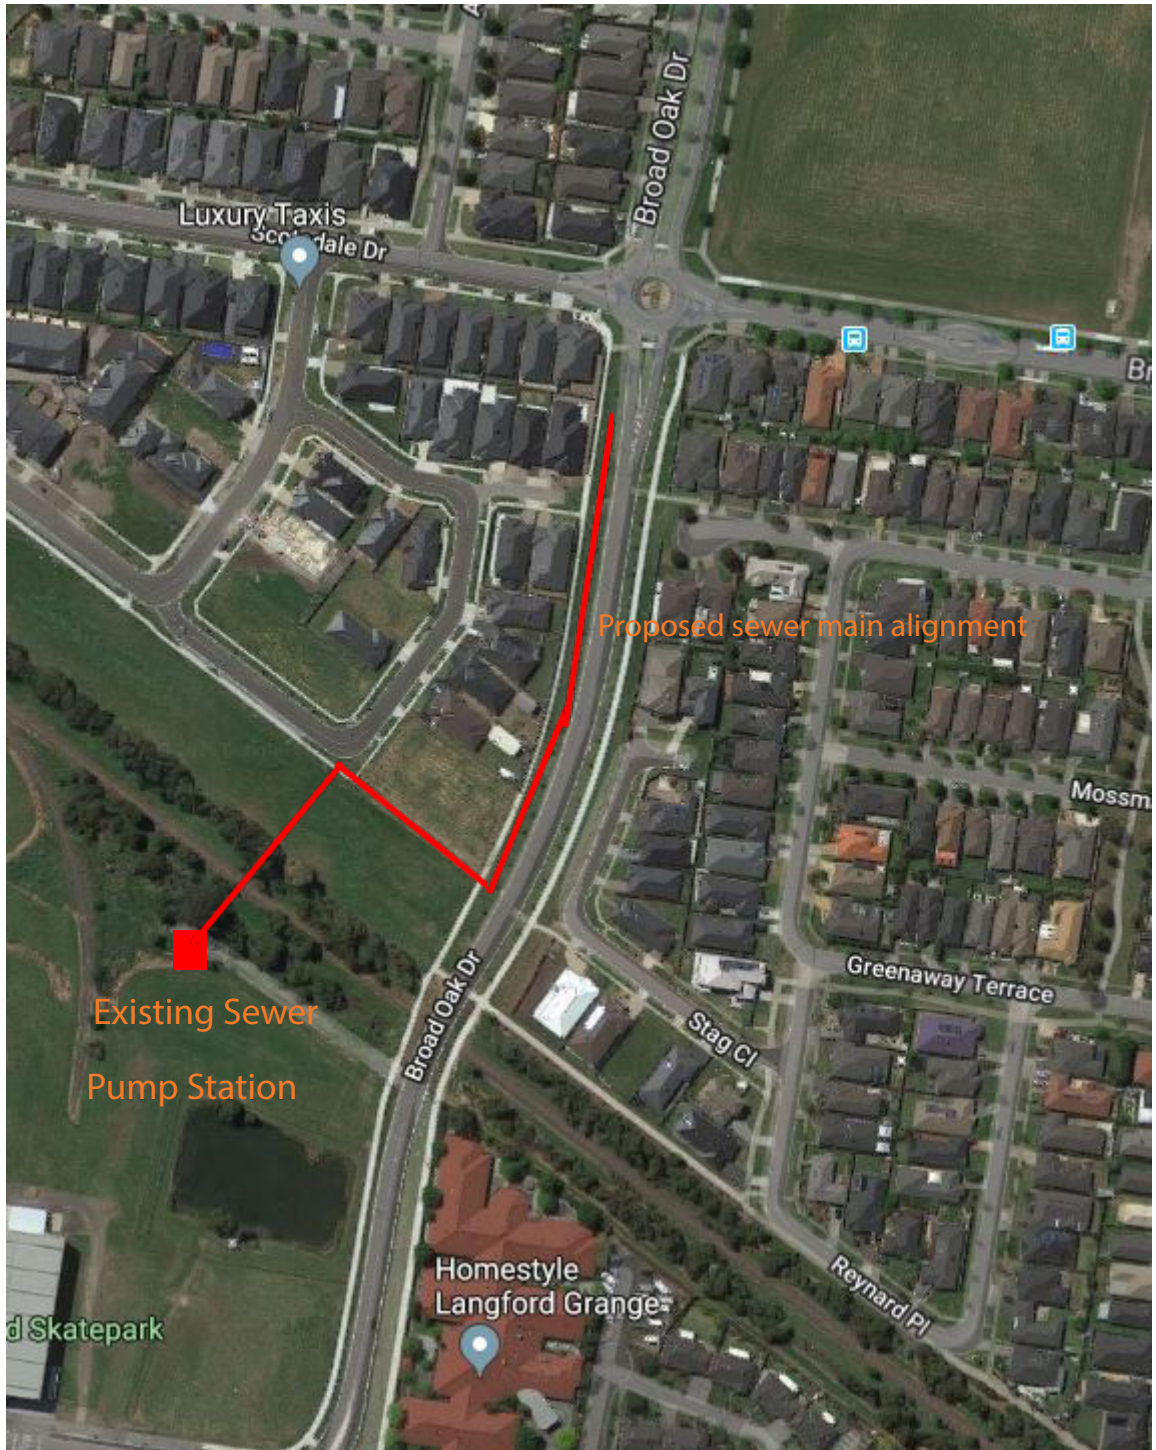

Special information

- Trees along Broad Oak Drive will need to be removed to facilitate works. These will be reinstated after pipe is installed.
- A combination of open cut trenching and pipe jacking will be used for this project.

Timing of works

- Work will be undertaken during the day, Monday to Friday 7 am - 6 pm and Saturday 7 am - 1 pm.
- Occasionally works may be required outside these hours for safety or technical reasons.
- The site compound will be set up in late February 2019 with works commencing once it is established. This project will take approximately 20 weeks.
