

# Gawalla Street and Goyarra Street Water Main Renewal

## Notification of upcoming day works in the Rye area

You might not notice a lot of the work we do because most of it is beneath your feet. Every day, we're maintaining and upgrading the underground infrastructure that keeps water and sewage services flowing. With some upcoming works in your area you're likely to see us around. Roads which will be impacted are:

Gawalla Street, Goyarra Street, Goorna Court and Adina Street.

Here's what to expect while we get the job done.

### Planning

- The water mains in the area have burst on a number of occasions and we want to upgrade them before it happens again.
- Interflow will be delivering these works on our behalf.
- Together, we'll do everything we can to keep the disruption to a minimum and leave the area as we found it.
- We don't intend to disrupt your water and sewerage services.

### Construction

We'll do our best to keep impacts to a minimum, however you may notice:

- A temporary site set up and storage area
- More trucks on local roads
- Limited street parking
- Short periods of noise when heavy machinery is being used, including reversing beepers.
- Lane closures with traffic management to guide road users around the work zone.
- Lights required to illuminate the site (if required).

To view impacts in video format visit [s.sew.com.au/constructionimpacts](https://s.sew.com.au/constructionimpacts)

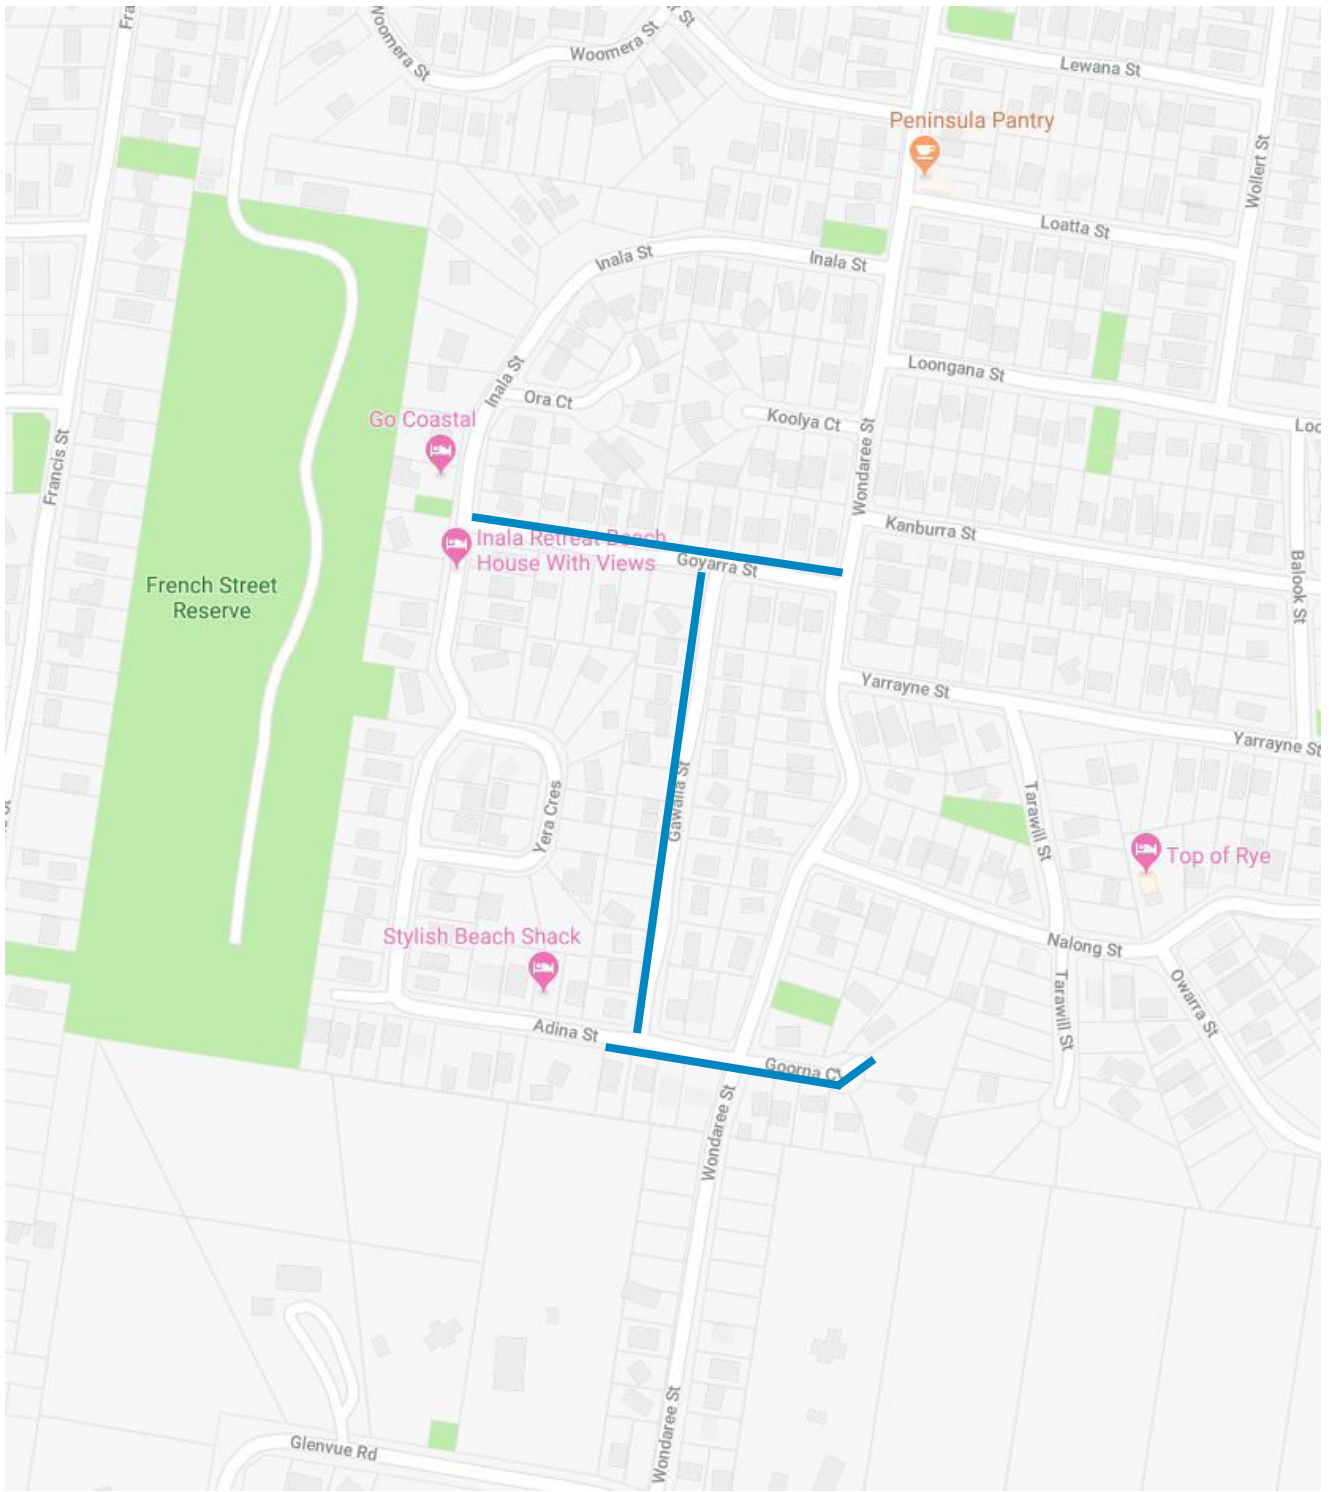

### Special information

- If your water supply is going to be disrupted, Interflow will contact you in advance and arrange connection to a temporary supply.
- To connect this temporary supply, we will need to access your property.
- Businesses fronting the works with fire services will experience a planned service disconnection during works. Please check the map overleaf for work locations, review your emergency plan and advise your insurer.

### Timing of works

- Weather permitting, we'll start work in late May. It should take about five weeks to complete.
- Construction will be during the day, Monday to Friday between the hours of 7 am and 6 pm and if required on Saturday from 8 am to 3 pm.
- On occasion we may need to work outside these hours for safety or technical reasons.
- If night works are required, hours of work will be between 7 pm and 6 am.
