### **Cranbourne East Sewer Pump Station Upgrade**

South East Water is committed to delivering quality and reliable services to our customers and the community. In line with this commitment we would like to advise you of **works to upgrade the Cranbourne East Sewer Pump Station in Staunton Walk and the installation of 1.5 kilometers of sewer pipe from the pump station along the boundary of the East Estate to Narre Warren - Cranbourne Road, finishing at 16 Alder Way.**

This project is necessary to ensure continued reliability of the sewerage network in the area.

We have engaged Zinfra, Jaydo and WSP (ZJW) Joint Venture to deliver the construction of this project on our behalf.

#### ***Construction***

South East Water and ZJW are committed to working closely with the community to minimise construction impacts where possible.

During construction you may notice:

- Increased truck movements on local roads
- Crews in the area from 7am to 6pm Monday to Friday (*weather permitting*) although works may need to be undertaken outside these hours for safety or technical reasons
- Limited on street car parking around the pump station
- Short periods of noise when heavy machinery is being used, including reversing beepers.

When required, traffic management will be in place to ensure safe pedestrian, bicycle and vehicle movements. Please take care when travelling around the work site.

Your water and sewage services will not be disrupted during these works.

#### ***Timing of works***

Construction will commence in late September and last for approximately six months (*weather permitting*).

Once construction is complete any areas impacted by the works will be reinstated as close as possible to their original condition.

***For more information***

If you would like more information about this project, please contact the Project Team on:

Phone: 1800 728 256

Email: [engagement@sew.com.au](mailto:engagement@sew.com.au)

Mail: Cranbourne East Sewer Pump Station Upgrade  
PO Box 2268  
Seaford VIC 3198

We would like to thank you for your patience and cooperation during these works.

Regards

Jessie Huang
