

Cranbourne West Recycled Water Tank

Notification of upcoming day works in the Cranbourne West area

You might not notice a lot of the work we do because most of it is beneath your feet. Every day, we're maintaining and upgrading the underground infrastructure that keeps water and sewage services flowing. With some upcoming works in your area you're likely to see us around. Roads which will be impacted are:

- Futures Road, Cranbourne West

Here's what to expect while we get the job done.

Planning

- A new steel recycled water tank is being installed on Futures Road. We are also installing a new recycled water main along the western side of the road (please see map overleaf)
- The Zinfra, Jaydo, WSP JV (ZJW) will be delivering these works on our behalf.
- We don't intend to disrupt your water and sewerage services.

Construction

We'll do our best to keep impacts to a minimum however you may notice:

- Increased truck movements
- Construction noise from heavy machinery, including reversing beepers
- A site compound set up near the recycled water tank location.
- Traffic management along Futures Road and Central Parkway.

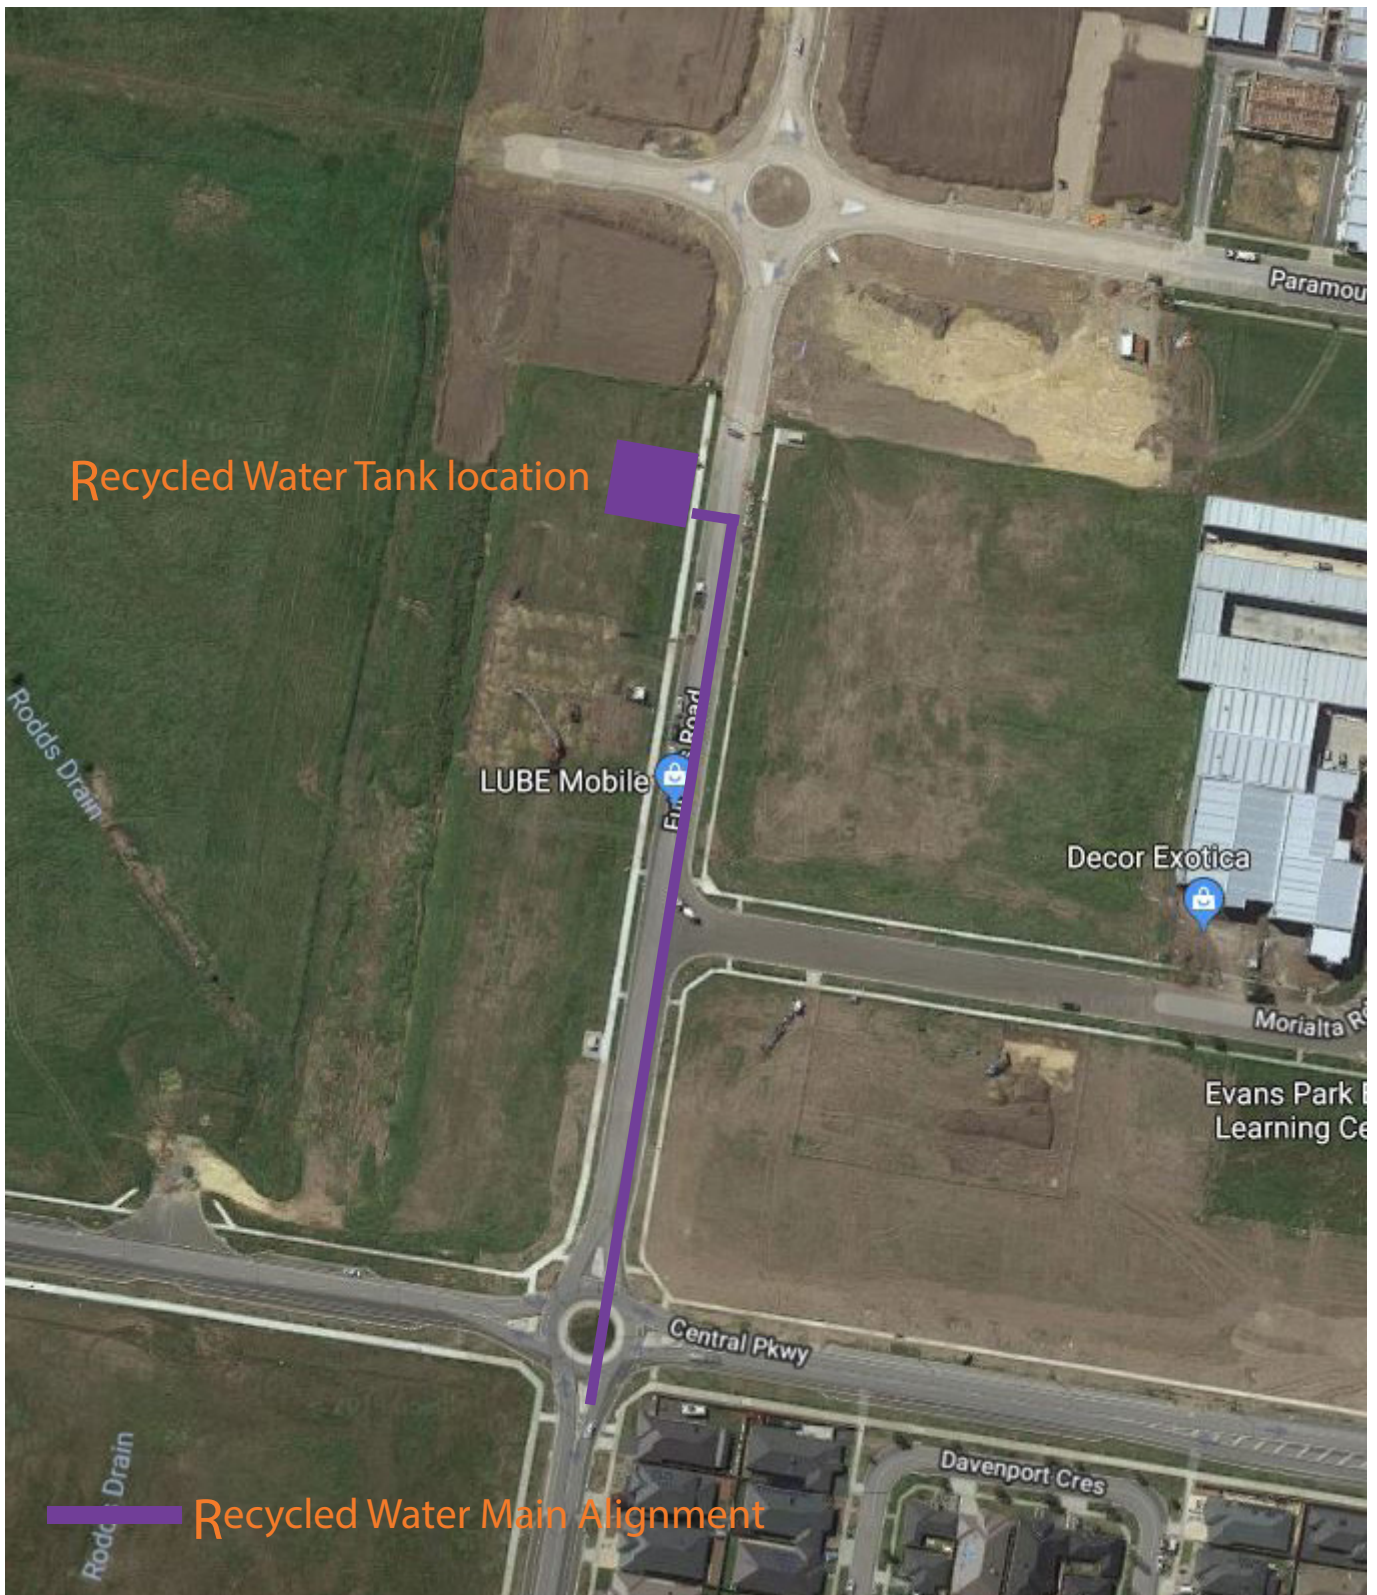

Special information

- Open cut trenching and horizontal directional drilling will be used to install the recycled water main along Futures Road.
- The recycled water tank will be 27 m in diameter and 4.4 m high.
- We will paint any above ground infrastructure to improve visual amenity.

Timing of works

- Weather permitting, work will be undertaken during the day, Monday to Friday 7 am - 6 pm and Saturday 7 am - 1 pm.
- Occasionally works may be required outside of these hours for safety or technical reasons.
- Construction will commence in March 2019 and last for approximately 16 weeks.
