

# Main Street, Mornington Water Main Renewal – night works

## Notification of upcoming night works in the Mornington area

You might not notice a lot of the work we do because most of it is beneath your feet. Every day, we're maintaining and upgrading the underground infrastructure that keeps water flowing. With some upcoming works in your area you're likely to see us around. Roads which will be impacted are:

- Main Street, Mornington (between The Esplanade and Barkly Street)
- Queen St → Albert St → Empire St → Ross St → Blake St

Here's what to expect while we get the job done.

### Planning

- The water main on Main Street, Mornington has burst on a number of occasions and we want to renew it before it happens again.
- Interflow will be delivering these works on our behalf.
- We don't intend to disrupt your water and sewerage services.

### Construction

We'll do our best to keep impacts to a minimum however you may notice:

- Increased truck movements.
- Limited on street car parking.
- Construction noise from heavy machinery, including reversing beepers.
- Lights required to illuminate the site.
- Changed traffic conditions in Main Street and adjoining streets between the Esplanade and Barkly St. This may include lane and road closures. Expect traffic delays.
- Traffic management to ensure safe pedestrian, bicycle and vehicle movements.

To view impacts in video format, [click here](#).

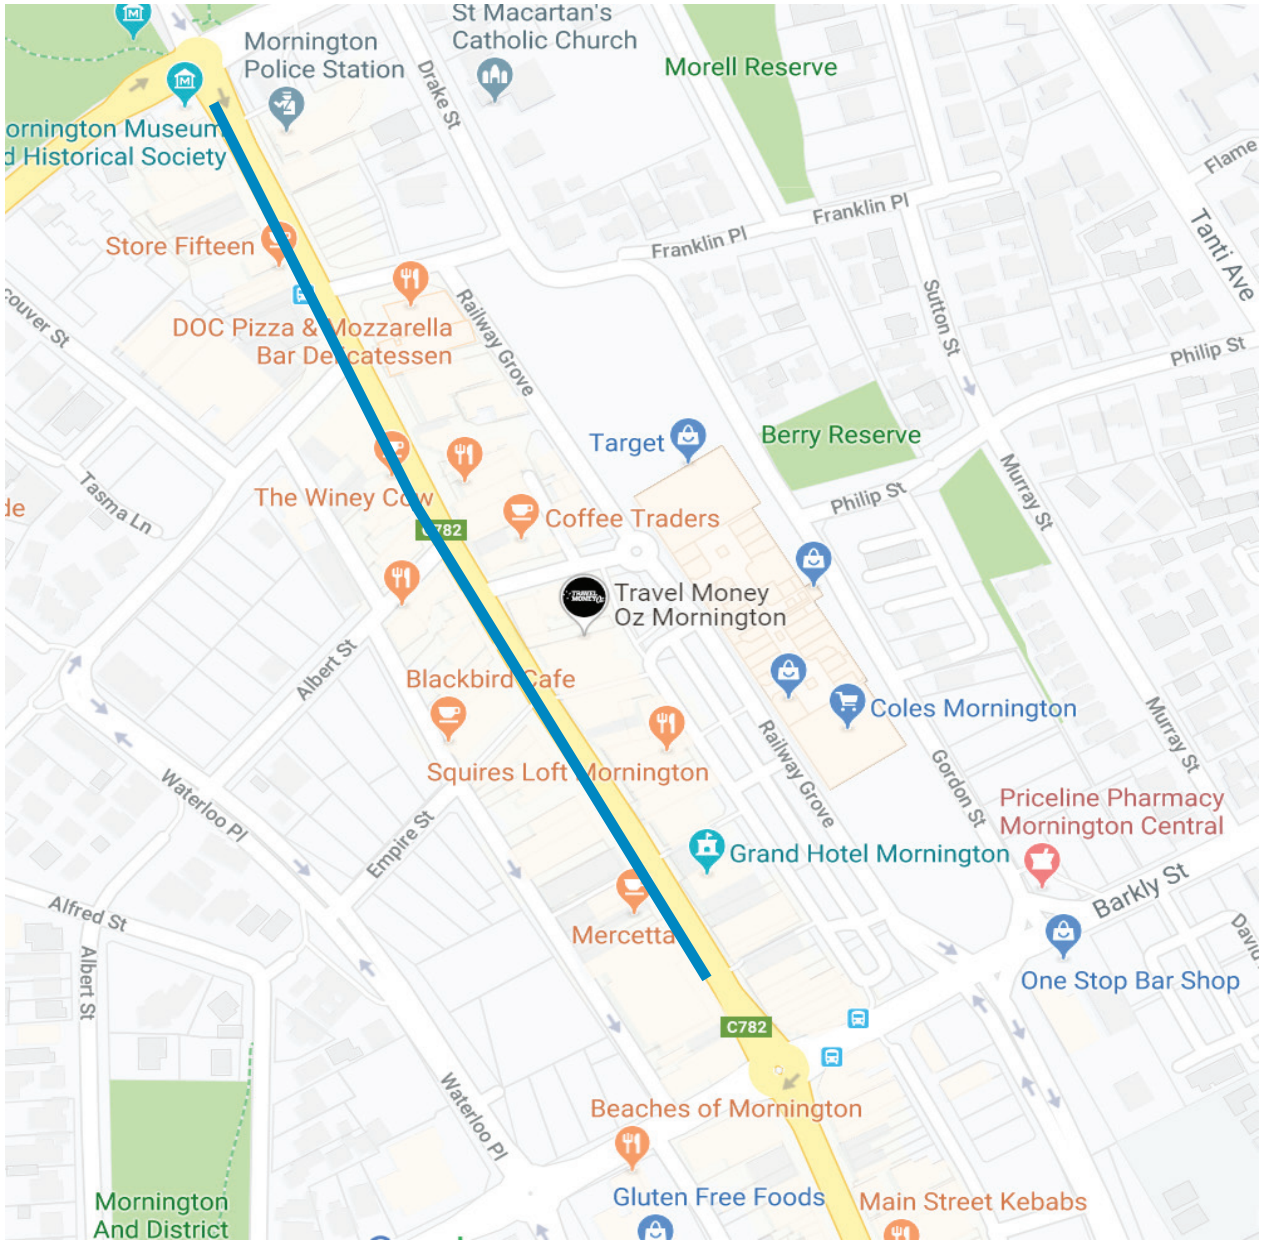

### Special information

- If your water supply is going to be disrupted, Interflow will contact you in advance and arrange connection to a temporary supply.
- To connect this temporary supply, we will need to access your property.
- Businesses with fire services will experience a planned fire service disconnection during works. Please review your business / emergency plan and advise your insurer.

### Timing of works

- Work will be undertaken at night, Sunday to Thursday between the hours of 7pm and 6am.
- Occasionally works may be required outside of these hours for safety or technical reasons.
- Construction will commence mid July 2019 and last until mid October 2019 (*weather permitting*).

Location of water main being renewed

## Contact details
