

Salmon Street Pump Station - investigative works

What to expect while we work in the Port Melbourne area

You might not notice a lot of the work we do because most of it is beneath your feet. Every day, we're maintaining and upgrading the underground infrastructure that keeps water flowing. With some upcoming works in your area you might see us around. Roads which will be impacted:

- Salmon Street.
- Turner Street
- Caprice Avenue.

Here's what to expect while we get the job done.

Planning

- These investigative works, to determine flow rates, are necessary to ensure the continued reliability of the sewerage network in your area.
- Jonoco Pty Ltd will be delivering these works on our behalf.
- Together, we'll do everything we can to keep the disruption to a minimum.
- We don't intend to disrupt your water and sewerage services.

Special information

- No construction will be required during this period.
- Works are of an investigative nature only.

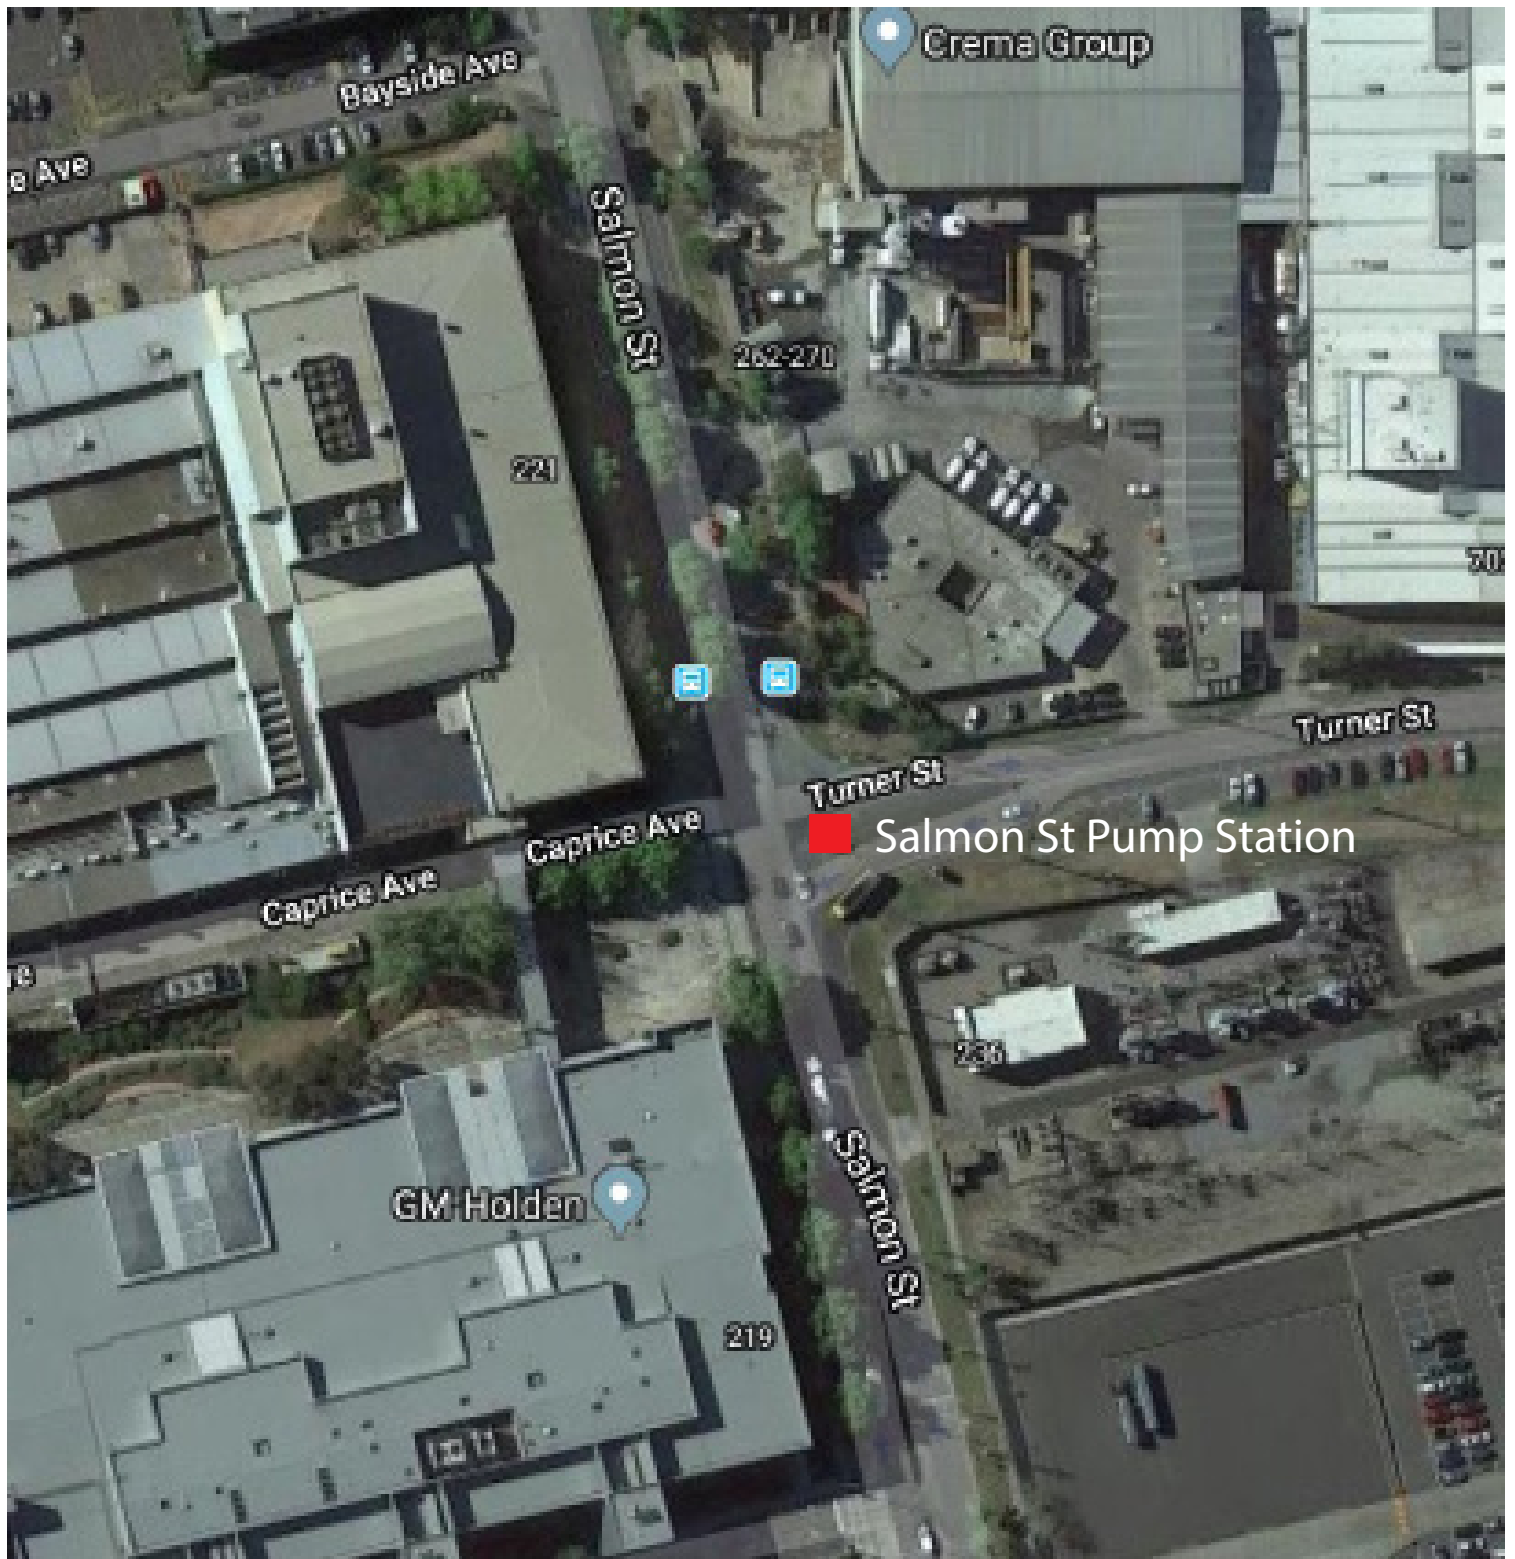

Construction impacts

- We'll do our best to keep impacts to a minimum however you may notice:
- Increased truck movements on local roads
 - Limited on street car parking
 - Restricted road access around the pump station
 - Noise from machinery, including reversing beepers
 - Traffic management around the pump station to ensure safe pedestrian, bicycle and vehicle movements.

Timing of works

- Weather permitting, work will be undertaken, on Saturday 13th April between the hours of 8am and 3pm.
