

St Kilda Street, Brighton Water Main Renewal Day Works

Notification of upcoming day works in the Brighton area

You might not notice a lot of the work we do because most of it is beneath your feet. Every day, we're maintaining and upgrading the underground infrastructure that keeps water and sewage services flowing. With some upcoming works in your area you're likely to see us around. Roads which will be impacted are:

- The Esplanade
- St Kilda Street

Here's what to expect while we get the job done.

Planning

- The water mains along St Kilda Street and The Esplanade have burst on a number of occasions and we want to upgrade them before it happens again.
- Comdain will be delivering these works on our behalf.
- Together, we'll do everything we can to keep the disruption to a minimum and leave the area as we found it.
- We don't intend to disrupt your water and sewerage services.

Construction

We'll do our best to keep impacts to a minimum however you may notice:

- A temporary site set up and storage area
- More trucks on local roads
- Limited street parking
- Short periods of noise when heavy machinery is being used, including reversing beepers
- Lane closures with traffic management to guide road users around the work zone
- Lights required to illuminate the site (if required).

Special information

- If your water supply is going to be disrupted, Comdain will contact you in advance and arrange connection to a temporary supply.
- To connect this temporary supply, we will need to access your property.
- Businesses with fire services will experience a planned fire service disconnection during works. Please review your business/emergency plan and advise your insurer.

Timing of works

- Weather permitting, we'll start work in late July. It should take about eight weeks to complete (weather permitting).
- Construction will be during the day, Monday to Friday between the hours of 7 am and 6 pm and on Saturday from 8 am to 3 pm.
- On occasion we may need to work outside these hours for safety or technical reasons.
- If night works are required, hours of work will be between 7 pm and 6 am.
