Hello

Aquarevo Water Recycling Plant

Aquarevo in Lyndhurst is a unique collaboration between South East Water and Villawood Properties to create what's on track to become Australia's most water efficient urban housing development. As part of the development, we're now preparing to construct an on-site Water Recycling Plant (WRP) to efficiently treat and recycle wastewater within the Aquarevo Estate.

In your area, we'll soon start work on the Aquarevo Water Recycling Plant (WRP) which will provide a sustainable supply of high-quality Class A recycled water for use within Aquarevo homes.

What you need to know

Our delivery partner Hydroflux Epco has been awarded the contract to design and construct the WRP. The WRP will be located at Brookwater Parade (see map overleaf).

When it's happening

To assist with finalising our design we expect some minor investigative works to take place in December 2024. We'll notify you before we start.

We're planning to begin site preparation works in early-mid 2025. The WRP will be mostly prefabricated offsite reducing the overall construction duration, however there will still be some site preparation works to facilitate the project. Site preparation works and construction of the WRP is estimated to be complete within three to six months.

We expect the WRP to be operational in late 2026.

We'll work with you to minimise impacts, where possible, and keep you informed about upcoming works.

Meet the Project team

Join us to learn about the Aquarevo water recycling plant on Thursday 12 December, see insert with this letter for more information.

Need to get in touch?

We're here to help, so here's how to reach our project team:

SEW project team

Phone: 1800 055 465

Email: engagement@sew.com.au

Web: southeastwater.com.au/aquarevowrp

We'd like to thank you for your patience and cooperation while we get the job done.

Kind regards,

Clinton Rampal
Senior Project Engineer
