

30 January 2026

Hello

## Dingley Recycled Water Scheme – Upcoming Night and Day Works in Your Area

We're continuing work to install the new pipeline as part of the Dingley Recycled Water Scheme. From **4 to 6 February**, you may notice our delivery partners Abergeldie, BMD and KBR (ABK) installing temporary fencing within Braeside Linear Reserve. This fencing will help create safe work zones while we complete the next stage of pipe installation.

From **9 February for approximately five weeks**, we'll work during the day between the **hours of 7am and 6pm**, Monday to Friday in Braeside Linear Reserve, between Springvale Road and Governor Road in Waterways to:

- deliver pipes to the site
- weld the pipes together
- complete service investigations and
- excavate the pits for our drilling machinery.

To minimise disruption on **Springvale Road**, we will need to conduct **night works from 15 February for approximately two weeks**, between the **hours of 7pm and 5am**, Sunday to Thursday. **Night works will take place in Braeside Linear Reserve, near Arcots Circuit, as we work to complete the pipe installation under Springvale Road.**

On occasion, we might need to work outside of these hours for safety reasons, or due to weather conditions. In this case, we'll let you know via SMS. **Please check your contact details are up to date on your account at [my.southeastwater.com.au](http://my.southeastwater.com.au)**

We'll do our best to keep disruptions to a minimum and leave the area as we found however, you may notice the following impacts.

### During day works:

- Increased truck and equipment movements from construction activities within Braeside Linear Reserve
- Noise from construction activities and vehicles, including truck movements, reverse beepers, drilling machinery and excavation
- **Localised pedestrian detours will be required. Signage and traffic controllers will be in place to safely guide you around our works areas**

### During night works:

- We'll have lanes closures and speed reductions in place on Springvale Road, between Pillars Road and Braeside-Dandenong Road
- Increased noise from construction activities and vehicles, including truck movements, reverse beepers, drilling machinery and excavation
  - We'll prioritise getting the noisiest works done at the beginning of the shift to minimise disruption to nearby residents
- Lights to illuminate our works area
- **Localised pedestrian detours will be required. Signage and traffic controllers will be in place to safely guide you around our works areas**

Bus routes and stops will not be affected during the works.

**Note:** There may be times where your property access is temporarily restricted. If this is the case, we will reach out to you directly in advance of the works.

See map on the following page for works areas, site access and localised pedestrian detours.

**There will be no disruption to your water or sewerage services during these works.**

**Need to get in touch? Here's how to reach our project team:**

**ABK Community Contact:** Elise Yue  
Phone: 0400 707 873  
Email: [elise.yue@abkjv.com](mailto:elise.yue@abkjv.com)

**South East Water:**  
Phone: 1800 330 129  
Email: [dingley@sew.com.au](mailto:dingley@sew.com.au)

Project updates are also available at our website: [southeastwater.com.au/dingleywest](http://southeastwater.com.au/dingleywest)

Thank you for your patience and cooperation while we get the job done.

Kind regards,

*Musonda Chisenga*  
**Project Engineer**
