5 February 2026

Hello

### **NIGHTWORKS- South Melbourne Sewer Project – Stage 2- Investigation Works- City Road, Clarke Street and Kavanagh Street.**

The South Melbourne Sewer Upgrade Stage 2 will increase the capacity of the sewer network to cater for population growth and future proof the sewerage network. As part of this project, we're doing investigative works to help us finalise the design.

We're working with our delivery partner, BFHI (Beca, Fulton Hogan and Interflow) to help us.

#### **What we're doing**

We need to locate and expose underground services and cables, using ground penetrating radar, conduct visual inspections and soil sampling to understand ground conditions along our proposed work area.

#### **When it's happening**

We're planning to start **nightworks** on 16<sup>th</sup> February 2026 and estimate the investigative works will take approximately 1 week to complete. You can expect us to work from Sunday to Thursday between 7 pm and 5 am. **We need to undertake this work at night to maintain a safe work environment for pedestrians, road users and our project team.**

#### **During the works you might notice:**

- **Construction noise from machinery including saw cutting and jackhammering**
- **Fewer car parks around the works area.**
- **Traffic detours.**
- **For access requirements, we may need to temporarily restrict parking in certain locations near the works zones. In the days prior to access being required, we'll place bollards in the restricted area along with flyer notifications on vehicles.**

Construction staff will be around to make sure people, bikes and cars can move around safely. You'll still have access to footpaths and businesses in the area.

**There will be no disruption to your water or sewerage services during these works.**

#### **Next steps**

We'll continue to work with you to minimise impacts, where possible. We'll get in touch prior to returning to the area to confirm dates and any potential impacts of these works.

**Need to get in touch?**

We're here to help, so here's how to reach our project team:

**BFHI:**

Phone: 0488 101 648

Email: [jrodd@interflow.com.au](mailto:jrodd@interflow.com.au)

Web:

We'd like to thank you for your patience and cooperation while we got the job done.

Kind regards,

Nicole Briggs
