

Electromagnetic Flow (Magflow) Meter Suppliers

South East Water may require the installation and verification of a Magflow Meter as a condition of your Trade Waste Consent.

It is your responsibility to ensure the Magflow Meter you use to monitor your trade waste complies with your Trade Waste Consent and the “Trade Waste Requirements – Electromagnetic Flow (Magflow) Meters” document published on the South East Water website.

Some suppliers of Magflow Meters are listed in the Table below, however:

- engaging any of these suppliers is at your own risk;
- South East Water does not require you to only engage one of these suppliers;
- South East Water does not recommend or guarantee the services of these or any other Magflow Meter suppliers; and
- this is not a complete list of Magflow Meter suppliers.

| Company | Address | Telephone |
